**Soft Skills :** Team Leadership, Problem-Solving, Communication, Project Management, Adaptability, Attention to Detail

### Work Experience

**AI Asas Information Technology, Sharjah UAE**

May 2022 - Present

#### Senior Software Developer / Frontend Lead

A versatile and hands-on Senior Software Developer leading the frontend team in delivering high-performance web and mobile applications. Proven expertise in full-stack development, deployment, and hardware integrations. Skilled in managing projects from concept to deployment while ensuring code quality, performance, and security.

#### Key Responsibilities:

- Led end-to-end development of 6+ enterprise web and mobile apps with React.js, Next.js, and React Native, improving accessibility by 40%.
- Deployed and maintained IIS-hosted applications with 99.9% up-time and reduced deployment issues by 30%.
- Built 30+ RESTful APIs in Node.js, removing front end dependencies and improving release speed by 20%.
- Designed optimized SQL schema and 20+ stored procedures to boost app performance and ensure data integrity.
- Integrated 3 hardware SDKs into React Native apps, enhancing security and automating user workflows.
- Implemented AD authentication across 5 apps for secure, seamless enterprise access.
- Collaborated with a 6+ member agile team to accelerate feature roll-outs by 30% and align delivery with product goals.

#### **Technologies Used:**

React Native, React.js, Next.js, MUI, Tailwind Css, Node.js, Microsoft SQL Server, IIS, Azure.

**Front-End Developer**

Worked as a React Native Developer, developing responsive and fast web applications and mobile applications, using react and react-native. Worked in coordination with developers to create highly interactive web applications.

**Key Responsibilities**

- Built 4 dynamic web apps with React.js from concept to deployment, improving load times by 90%.
- Developed 2 cross-platform mobile apps with React Native, boosting mobile reach and engagement by 40%.
- Standardized UI components with a mobile-first design, cutting layout issues by 80% and improving usability scores.
- Delivered clean, user-centric UI/UX, increasing satisfaction by 20% and reducing bounce rates by 15%.
- Reviewed UX/UI mockups for technical feasibility, reducing rework and speeding design-to-development by 25%.

**BVOY Technologies, Kannur, Kerala**

November 2020 - April 2021

**Web Developer**

Worked as a Web Developer, developing responsive and fast websites and Landing pages. Worked in creating tasteful animations and illustrations for landing pages.

**Key Responsibilities**

- Developed Web applications and Landing pages from concept through deployment.
- Implemented intricate SVG animations using JavaScript and CSS for various landing pages, enhancing user engagement
- Engineered custom WordPress themes by applying a strict mobile-first design strategy, ensuring optimal responsiveness and user experience across all devices for multiple clients
- Provided critical technical feasibility assessments for UI/UX designs, ensuring proposed concepts were practical for development and aligned with project timelines and technical constraints
